To whom it may concern,

During the months of August through to November my Bodyshop sub contracted the PDR team to complete a significant back log of repairs that our technicians were unable to repair without replacing parts and or writing the vehicle off as an uneconomical repair, I was astounded at the quality of repairs completed by the PDR team they worked tirelessly to meet the deadlines imposed by the insurance companies. I found the team to be professional reliable and of the utmost integrity, I would not hesitate in recommending both Nathanael Alain and his team.

Regards
